

# **POLYBATCH® Orange 1096**

### **Product Description**

POLYBATCH® 1096 is an orange color concentrate produced with inorganic pigments based in polyethylene resin, with an excellent dispersion and good opacity, for extrusion and blow molding process applications.

POLYBATCH® 1096 is recommended to be used at 5%

#### Characteristics:

- · Excellent dispersion
- Weather fastness (1-5): 4-5
- Light fastness (1-8): 7-8
- Heat Resistance: 240°C

## Applications:

· Extrusion and Injection Molding
